Do you believe that student population growth will require a plan for new schools by 2026? (N=577)

Clover High School is projected to be 3,000+ students by 2026. Do you support splitting CHS into two high schools (building HS#2) by 2026? (N=577)

Splitting Clover High School and adding a HS#2 gives the district a third middle school (MS#3) with NO NEW TAX IMPACT to citizens. Do you support converting the 9th Grade Campus back to a middle school at no cost to the tax payers by 2026? (N=576)

Clover School District is projected to run out of elementary space in 2026. Do you support the district using short term funds or long term funds to address the needed space at the elementary level? (N=573)

■ Yes, using short term funds ■ Yes, using long term funds ■ No I do not support adding an elementary school

:What do you like/dislike about project option 4?

A bond referendum is the only way to secure enough funds for a high school: Do you support including adding a new high school to a bond referendum question? (N=575)

If a second high school is included in a future bond referendum, should a second high school include an athletic stadium, field houses, and a concession stand? (N=577)

Should the second high school and Clover High School share stadiums to save money? (N=567)

How do you think the district should pay for new schools due to growth? (N=545)

What other options should CSD implement to address crowding? (N=574)

■ Larger Class Sizes ■ Mobile Units ■ Rezoning Attendance Lines (Elementary/Middle) ■ All of the Above ■ None of the Above
